FILM STALKER

By Group Y

CONCEPT

Film Stalker is a web-app that helps movie/TV shows fans visit the **filming sites** where their favourite movies and tv shows were shot. Using various features you can track these locations and mark the ones you have visited. It will also assist in travelling to the filming location itself.

The site will be split into **six** main pages :

- Login
- Map
- Account
- MyStalks
- Travel
- Home

Data

APIs

- Filming locations : IMDB8
- Maps : Google Maps-Platfrom
- Flights : Skyscanner Flight Search
- Airports : Travel Hacking Tool

Links:

- IMDB API : https://rapidapi.com/apidojo/api/imdb8
- Skyscanner Flight Search API Documentation : https://rapidapi.com/skyscanner/api/skyscanner-flight-search
- Travel Hacking Tool API Documentation : https://rapidapi.com/travelhackingtool/api/travel-hacking-tool
- Google maps : https://cloud.google.com/maps-platform

User
